idsideAI Demo Deck v4.1 — 5 Slides

Slide 1: Welcome to idsideAI

The Decision Layer for AI

Orchestrating models, boosting outcomes, turning every ask into a reusable Decision Model

Today's Demo: - See Decision Models in action - Watch AI orchestration work - Experience the future of decision intelligence

Slide 2: The Problem We Solve

AI is Fragmented & Decisions are Lost

Before idsideAI: - Multiple AI tools, no integration - Decision logic disappears after each conversation - Teams can't collaborate on AI decisions - No audit trail for compliance

The Cost: - Repeated work and lost knowledge - Inconsistent decision quality - Compliance challenges - Missed opportunities for improvement

Slide 3: Live Demo — Decision Models

Watch as we transform an AI conversation into a reusable asset

Demo Scenario: "Should we hire a new marketing manager?"

You'll See: 1. **AI Orchestration** — Multiple models working together 2. **Decision Graph** — Visual representation of our thinking 3. **Evidence Capture** — Supporting data with confidence levels 4. **Decision Model** — Saved for future hiring decisions

Key Features: - Real-time visualization - Multi-AI integration - Collaborative editing - Audit trail generation
